

HOW TO PLAY

Try to keep it to 3-4 players, so each student gets more turns to answer questions.

Each set of 4 – 5 students need:

- 1 board

- 2 boxes to hold cards

- 2 decks of cards (Egg & hatchling, Juvenile to adult & nesting)

- 1 number cube

- 1 Glossary sheet/ student

- A counting disk, etc. for each player

Players rotate turns

Must roll an ODD number to start moving on the board

After placing their disk on the board, player must draw a card from the Egg and Hatchling deck and correctly answer the question.

Failure to answer correctly causes the player to end turn without moving forward.

Landing on a DANGER or DELAY space is a penalty as shown.

First player to the FINISH is the winner.
