

1

**What is the
typical
incubation
period?**

2

**What is
INCUBATION
?**

3

**What percent of
the eggs in a
nest usually
hatch?**

4

**Why are the
eggs
synchronized?**

5

**How long does
it take for the
hatchlings to
dig to the
surface?**

6

**In what
“direction” do
the hatchlings
head?**

7

**How do hotel
lights or street
lights disorient
the hatchlings?**

8

**What does
DISORIENTATION
mean?**

9

**During what
part of the day
do the
hatchlings
usually emerge?**

<div>10</div> <div>Why do human or mechanical sounds disorient hatchlings?</div>	<div>11</div> <div>How many pounds of eggs are typically found along a 20-mile beach in Florida?</div>	<div>12</div> <div>How can high water caused by storm affect the embryos in the eggs?</div>
<div>13</div> <div>Why do hatchlings need to “unfold”?</div>	<div>14</div> <div>What percentage of the nests are disorientated and thus destroyed by bright lights?</div>	<div>15</div> <div>What percent of the hatchlings survive to get to the water?</div>
<div>16</div> <div>What is the purpose of the egg sac?</div>	<div>17</div> <div>How does a hatchling get out of the shell?</div>	<div>18</div> <div>What “direction” does the hatchling swim when it gets to the water?</div>

19

What are three dangers facing the eggs?

20

What are 3 dangers facing the hatchlings?

21

What do the hatchlings eat?

22

Where have some juvenile sea turtles been found?

23

Which stage of the life cycle do we know the least?

24

How long are The Lost Years?

25

What are 3 dangers of juvenile sea turtles?

26

What are 3 dangers of Adult marine turtles?

27

What are 3 dangers of adult sea turtles during the nesting stage?

28

How often do adult sea turtles return to the nesting areas?

29

How many times in a single nesting season will the female come ashore to nest?

30

How many eggs does the female sea turtle lay in nest?

31

How long does it take the female to lay a clutch of eggs?

32

What is a false crawl?

33

How deep does the female dig the nest?

34

How far up the beach does the female go to lay her eggs?

35

How close to the place where she was hatched does the female come to lay her eggs?

36

Where does the female go to lay her eggs?

<div>37</div> <div>How far does a marine turtle migrate to nest?</div>	<div>38</div> <div>How old may a marine turtle be when it is mature and ready to nest?</div>	<div>39</div> <div>When do adult male sea turtles return to land?</div>
<div>40</div> <div>How much care does a female sea turtle give the eggs after she lays them?</div>	<div>41</div> <div>What is cold stunning?</div>	<div>42</div> <div>What is stranding?</div>
<div>43</div> <div>What is a MPA?</div>	<div>44</div> <div>What natural event can cause habitat destruction?</div>	<div>45</div> <div>What is a TED?</div>

46

At what temperature will half the eggs in the nest be male, and half be female?

47

At what temperature will all the hatchlings be male?

48

At what temperature will all the hatchlings be female?

49

When is the sea turtle nesting season?

50

How often does a false crawl occur?

51

What is a circadian cycle?

52

What type of diet do most adult sea turtles have?

53

What type of diet do most juvenile sea turtles have?

54

What size is the egg of a typical female sea turtle?
